

Appendix 3

Notice to Neighbours of Intention to Lay 1080 Poison

To: _____ **Date:** / /
(Recipient's Name and Address)

Notice of Intention to Lay 1080 Poison at _____
(Address where poison is to be laid)

As a neighbouring landholder I wish to inform you that I (or other authorised person) intend to lay 1080 poison baits on my property for the control of foxes / wild dogs / rabbits / feral pigs. I intend to commence baiting on / / and complete the baiting program on / / .

Please be advised that 1080 is highly toxic. The consumption of an animal that has ingested a lethal or sub-lethal dose of 1080 poses a serious risk of secondary poisoning to humans and other species. Taking of carcasses, removal of hides and shooting or trapping animals (for human or animal consumption) is prohibited during the baiting period and for at least 14 days after the completion of the baiting program.

Please ensure children and other persons in your care are restricted from entering the site of baiting. Please restrain your pets, working dogs and stock to avoid the possibility of poisoning through direct baiting or through eating 1080 poisoned animals.

If you would like further information about this proposed baiting program please contact me on the number below. Alternatively, you can speak to a Ranger at your closest Livestock Health and Pest Authority (LHPA). More information about the use of 1080 is available from LHPA's website: www.lhpa.org.au.
